## JENGA GAME SET

SKU: JENGA

It's the block-balancing, tower-tumbling classic Jenga game! How will you stack up against the laws of gravity? To begin, stack the genuine hardwood blocks into a sturdy tower, using the handy stacking sleeve. Then slide out the blocks one by one and place them on top of the stack. Is your hand steady enough to slide out the last block before the tower collapses? Quick and easy to set up, playing the Jenga game is a fun thing to do during game night. Play it solo, with friends, or in teams! How do you Jenga?
