## Transport Leg Brace

SKU: LAB-100

- Unique to Humane Restraint, the LAB-100 impedes running and kicking. It can be worn under clothing making it ideal for jury trials and airline travel where a discrete restraint is needed. Three nylon straps close with hook and loop for fast application and removal. A fourth strap, locking and made of heavy duty leather, provides extra security. Rugged steel upright has hinged knee with a spring-loaded pin that will maintain brace in upright position until released with lever.
- Use separately right or left, or right and left together for maximum security. Large storage bag (sold separately) easily accommodates a pair of leg braces.

SKU	Description	Weight		
LAB-100-L	Left Leg	8 oz.	<b>Materials Used</b>	2" polypropylene and 2" acetal cam buckle, 2" side release buckle or 1" hook and loop, and 2" acetal keepers with buckle belts only.
LAB-100-R	Right Leg	8 oz.		
<b>Description</b>	The metal piece on the leg brace is 27" long. The 2" wide nylon straps from top to bottom are 37½", 32½", and 30½" in length. This steel upright has hinged knee with a spring loaded pin that will maintain the brace in the upright position until released with lever. The locking leather strap at the bottom is 17" long and 1¼" wide with ten size adjustments. Made of heavy duty leather to provide extra security. This includes a #L-300 lock with K300 key.		<b>Cleaning &amp; Maintaining</b>	Dry clean or launder at less than 280°F. When decontaminating bloodborne pathogens, use bleach while laundering.
<b>Intended Use</b>	Helps hold seated patients safely in a wheelchair.		<b>Storage</b>	Store away from heat greater than 280°F or open flame.
<b>Instructions</b>	Anchor each strap to wheelchair with Easy Tie Knot. Place patient in chair. Attach in front of patient with hook and loop, side release or Cam buckle.		<b>Caution</b>	Federal law restricts this device to sale by or on the order of a physician
<b>Safety Check</b>	Including, but not limited to, buckle or hook and loop, polypropylene, and stitching.
