Leather Transport Belt

SKU: MBT-480

This belt is in a class all by itself and can do it all. The half cuffs on each side allow you to keep the hands separate but restrained. The steel D-ring in front is designed to fit virtually all models of handcuffs including hinged cuffs or can be used to attach the waist belt in front with a tether (WML-101 or WMR-101) to ankle restraints (AD-305, ADL-305, or AD-305-POLY).

<u>SKU</u>	<u>Measurements</u>	<u>Weight</u>		
MBT-480	52" X 1.5" 9 size adjustments (30" - 48" by 2" increments)	1 lb. 9 oz.		
Description	52" long and 1½" wide with 9 size adjustments (30" – 48" by 2" increments)		Materials Used	12/13 oz. leather, 1½" steel roller buckle, 1½" steel keeper, pair of handcuffs, and a steel D-ring made to our specifications to fit virtually all handcuffs.
Intended Use	To maintain handcuffed person's wrists at waist by means of the attached cuff or use of the D-ring and a pair of handcuffs. Use only as specified in the instructions.		Cleaning & Maintaining	For regular cleaning, wipe with a mild soap and warm water. When decontaminating bloodborne pathogens, use one cup of bleach to a gallon of water, then rinse. After wiping the leather, allow it to air dry and apply neat's-foot oil.
Instructions	With restrained person's hands cuffed, wrap the belt around the waist. Pull tail end through roller buckle and adjust to fit snugly. Pull the tail end through the keeper to hold it in place. BACK FRONT Uncuff one arm, feed cuff through the D-ring, and reapply the cuff to secure. OR close attached cuffs on the belt to the detainee. NOTE: Do not use for prolonged periods of time.		Storage	Store in a dry area to prevent mildew
Safety Check	Including, but not limited to, stitching, rivets, handcuffs and leather.
